Stockholm, 30 April 2020

Work Certificate

This is to certify that Alexander Linder (Swedish ID number 931122-1916), has worked at EF in Stockholm as a freelance Video Editor for over 3 years, from 10 February 2017 until 30 April 2020. Alexander has been employed via his own production company, Nordic Flare Production Handelsbolag, but has worked at our EF offices in Stockholm as a regular member of our EF Video Team.

Alexander is a great video editor, with great sense for pacing, style and design. He also has very broad expertise in video post-production, from logging to editing, color-correction, graphics design and animation, sound mixing and transcoding, using mainly the Adobe CC suite of programs. This has been very useful for us at EF, since Alexander has been able to single-handedly bring our projects from raw footage to finished, polished videos used in EF's global online marketing.

Apart from his technical skills and sense for design, Alexander has a great attitude and is good at taking feedback, always with the goal of improving the final product in the eyes of our customers. He also works fast and can handle that some projects are more important than others.

Due to organizational changes at EF, unfortunately we have to see Alexander go after over 3 years of very successful work for our company. We wish Alexander all the best in his future career as a filmmaker, and hope that one day we may get to see him back at EF again.

A handwritten signature in blue ink, appearing to read 'Mats Ulenius', with a long horizontal line extending to the right.

Mats Ulenius
Executive Vice President, Marketing/Video
